FAMOUS SCHOOL HOUSE BLOCK in the town of BURK-BURNETT. On the SAME TRACT we have ANOTHER well, down between 200 and 300 feet. On the offset to this property we own one-fifteenth of the production of a good well that has been in for over four months and that is paying us \$1,000 a month as our share. There is \$4,000 in Bank NOW from this source alone. If THAT isn't the RIGHT place, there isn't ANY PLACE that's right.

IF YOU WANT REFERENCES!

Read this:

Before offering the stock of the GREATER TEXAS OIL COMPANY for SALE in El BANK & TRUST CO. of EL PASO to LOOK UP the MEN connected with the COMPANY.

They DID SO and it is WITH the FILL PERMISSION of the UNION BANK & TRUST CO, that we refer to that IX-STITUTION as to their CHARACTER and STAND-ING.

THE CIFY NATIONAL BANK of DALLAS will answer any inquiry regarding the personnel of the Greater Texas Oil Company. Your Banker can look as up.

"GREATER TEXAS" stock is \$10 a share par value. Only a small Block is offered. When the first well comes in, and 10 days or less should do the trick, the sale of stock ENDS. Your chance will be gone. But these are not ALL of the chances you have when you buy GREATER TEXAS.

Our property in Block 72-Northwest of Burkburnett (5 acres) is our next point to hit, and after that our 50 acres in Archer County, where the oil is of the finest grade. Altogether, "GREATER TEXAS" will drill 12 or more wells.

Now GET THIS-If you want any assurance as to the people responsible for the destinies of "GREATER TEXAS," get your Banker to WIRE, but do it QUICK. The officers of Greater Texas predict that in less than 10 days the stock will be withdrawn—that in less than 15 days they will have a well in-that in 30 days a dividend will be possible, and that in 90 days "GREATER TEXAS" STOCK will be worth \$50 a share or more.

"GREATER TEXAS" is offering a block of its stock simply because it is the quickest way to get the small amount necessary to finish drilling the two present wells and to pay running expenses until the first well comes in. "GREAT-ER TEXAS" does not want to sell a BIG LOT of stock. It wants to sell as little as will cover the IMMEDIATE DEVELOPMENTS. Production will take care of the FU-

It isn't often that you get a CHANCE LIKE THIS. There's only ONE THING to DO-GRASP YOUR CHANCE NOW. "GREATER TEXAS" isn't going to have TIME to COAX you-in ten days or so you won't have a ghost of a show to get this stock at par. We reserve the RIGHT TO CALL OFF THE SALE OF STOCK AT ANY MINUTE. If you want to GET IN-GET IN NOW at \$10 a share, par value.

The Greater Texas Oil Co.

Value of Shares \$10.00

OIL IN THE PECOS COUNTRY

Buy An Interest In The Land

If you have any idea of trying to make money out of oil and did not read "The History of Oil in the Pecos Country," published by me in Saturday and Sunday's papers, write me for a copy, Get the facts and then choose your investment.

When you are in had health you go to a Doctor for relief because you think that he having studied medicines and diseases knows how to benefit you. So you risk your Life to his knowledge. The same reasoning should cause you if you intend to invest in oil to risk your money to my knowledge of the Pecos Country, as I have been familiar with it for years, and have risked my time and money having faith in the oil being there somewhere under the ground.

In joining me you get an interest in the Land itself, in everything above and below, in that country of wonderful and unusual formations it is possible that some other wealth-giving element may be discovered during this era of exploration, and owning an interest in the Land and all it contains, you will not have to divide with others as is the case with leased lands.

Several years ago an oil Company drilled a well in the Pecos Country. They did not strike the body of oil but they did prove the existence of a great body of oil in that section. They struck oil and gas at various depths. Once the oil shot up over the top of the derrick. They filled two big tanks with oil which I saw, and the Gas overcame one of the Drillers. For some reason they stopped work and capped the well. Two years later I visited the well. Gas was escaping from around the cap and I struck a match to it and lit the Gas. This Gas had kept on coming from somewhere for two years. They either did not go deep enough or missed the body of oil. The manager asked my assistance in obtaining a certain piece of land. I secured it for him, thereby making a thousand dollars, and at that time advised him to drill in another spot.

My article may be a "Messenger of Fortune" to you. I advise you to heed its tidings and invest in these Lands now. It will be too late when the wells being drilled strike the pools of oil. There will be no more advertisements at present, but your name and address sent to me will bring
